EDUCATION

Stony Brook University

Bachelors of Science in Computer Engineering - Cum Laude, Dean's List

May 2022

EXPERIENCE

Software Developer & Implementation Consultant | [Fast Enterprises](#)

Aug 2023 - Current

- Modernized tax processing for the city of Kansas City, Missouri for over 2 million taxpayers.
- Designed, configured, and tested the guest payment plan feature, enabling taxpayers to enroll in payment plans online.
- Engineered complex C# applications with SQL databases, ensuring efficient data retrieval and secure data storage.
- Collaborated with cross-functional teams to define software requirements, develop functional specifications, and deliver high-quality software solutions.
- Engineered a C# backend data pipeline to automate FuelTrac API ingestion of fuel data, integrating it into a data warehouse with error handling and database mapping, improving data processing efficiency and system reliability.
- Developed validation logic and SQL-based comparison tools to cross-check FuelTrac data against Motor Fuel tax returns, identifying discrepancies and automating audit report generation, resulting in improved data accuracy and enabling targeted compliance enforcement.

Software Engineering Fellow | [Headstarter](#)

May 2023 - July 2023

- Completed the Headstarter Software Engineering Fellowship, receiving mentorship from engineers at Amazon, Bloomberg, and Capital One while building real-world, industry-focused projects using modern development practices, strengthening skills in full-stack development, scalable system design, problem-solving, and code quality.

PROJECTS

Recipe Share | [Android Studio](#), [Java](#), [APIs](#), [Database](#), [Google Cloud](#)

- Designed and programmed a recipe sharing application using Spoonacular API via Android Studio.
- Implemented Google sign in, multi-user functionality, like and comment sections using Google Cloud and Firebase.

Tech Incubator (Talent Match) | [Visual Studio](#), [HTML](#), [CSS](#), [JavaScript](#), [React.js](#), [Bootstrap](#), [Firebase](#)

- Programmed a Company-Employee assignment website using Vite React.js framework and HTML and CSS for frontend dashboard components (Adding Tasks, Task Lists, general UI and used OAuth 2.0 for secure sign-in).
- Integrated Firebase as the backend service to efficiently manage and store data, enabling real-time updates and task deletion, thus ensuring robust data handling and seamless user interactions. <https://tech-incubator.vercel.app/>

Data Aggregator (Weather) | [Visual Studio](#), [HTML](#), [CSS](#), [JavaScript](#), [React.js](#), [Bootstrap](#), [APIs](#)

- Built a React weather/news app using OpenWeather, Open-Meteo, and Newsletter APIs to display real-time weather, air quality, and top news headlines based on user location

SKILLS

Additional Projects & Mentions: PR Director, IEEE Stony Brook Chapter | Wordle Clone (HTML/CSS/JS) | Full-Stack Blogging Application | Responsive Newsletter Signup Page | Tindog (Pet Matching App) | To-Do List Manager | Functional Drone

Programming Languages: Python, Java, C, C++, C#, JavaScript (ES6+), SQL, HTML5, CSS3, VB.NET

Frameworks & Libraries: React.js, Node.js, Express.js, Bootstrap, jQuery, Mongoose, RESTful APIs, SOAP APIs, JSON

Databases: SQL Server (SSMS), MongoDB, MySQL, PostgreSQL

Software Development Practices: Object-Oriented Programming (OOP), Agile/Scrum, Test-Driven Development (TDD), Version Control (Git), MVC Architecture, API Development & Integration

Cloud & DevOps Tools: AWS (EC2, S3, Lambda), Docker (basic), Git, GitHub, GitHub Actions (CI/CD), Linux/Unix, Bash

Tools & Platforms: Visual Studio, VS Code, Postman, Android Studio, SQL Server Management Studio (SSMS)

Soft Skills: Adaptability, Personal Accountability, Clear & Professional Communication, Cross-Functional Collaboration, Problem Solving,
